Notice concerning change of Limited Express Romancecar LSE (7000 model) carriages

Dear Passengers,

Please be informed that certain carriages of our Limited Express Romancecar LSE (7000 model) were recently found to be defective during inspection and have been suspended from operation for some time to come. In the meantime, these carriages have been replaced by carriages of different models.

Due to this, some customers who have already made reservations and purchased express tickets for the LSE (7000 model) may require to change their seating, in which case, please contact Odakyu Sightseeing Service Center before boarding. We deeply apologize for any inconvenience this may have caused.

Please also note that reservation for seats such as observation deck seats may not be available for some time to come. If you have any queries, please contact Odakyu Sightseeing Service Center (details given below).

Note: Changes of carriages may also take place on other Romancecar trains.

Inquiries:

Odakyu Sightseeing Service Center
