Dividend Forecast for the Fiscal Year Ending March 31, 2020

In light of a substantial shortfall in consolidated net income attributable to owners of parent as compared with the forecast for the fiscal year ended March 31, 2020 due to the impact of the coronavirus outbreak, the Company has regrettably decided to revise the year-end dividend forecast to 10 yen per share (from the previous forecast of 11 yen).

*Annual dividend forecast: 21 yen (previous forecast 22 yen)

Financial Results Forecast and Dividend Forecast for the Fiscal Year Ending March 31, 2021

In circumstances in which it is uncertain when the coronavirus pandemic will subside, at this time it would be difficult to reasonably assess the impact of the coronavirus outbreak on revenue from operations or formulate numerical targets that reflect future countermeasures. Accordingly, the Company has not yet determined a financial results forecast or dividend forecast for the fiscal year ending March 31, 2021.
