FY3/2027 H1 Results — FAQ

Note: This document presents some of the anticipated questions relating to the Company's financial results of the FY3/2027 H1 Results, together with answers to these questions. If you have any queries, etc., please contact the IR Office of Odakyu Electric Railway Co., Ltd.
(E-mail: ir@odakyu-dentetsu.co.jp)

Q1. What impacts does the deteriorating Middle East situation have on the Group?

- Major impacts associated with the deteriorating Middle East situation include higher power costs in Railways and higher fuel expenses in Buses due to soaring crude oil prices.
- Regarding the power costs of the Company's railway business, since contracts are renewed annually and the Company has concluded contracts for FY3/2027 that are unlikely to be impacted by fuel prices, the impact on performance will be limited. In FY3/2027 H1, these costs were 3,479 million yen, almost unchanged year on year.
- Fuel procurement costs in Buses increased compared to normal fiscal years, but the impact on performance was limited, and, at 1,324 million yen in FY3/2027 H1, they were on par with the previous year.
- We have revised the FY3/2027 forecasts announced in May to reflect the H1 results and current trends, but the impact that the revised power costs and fuel expenses will have on performance is limited, and assumptions regarding the impact of the Middle East situation are unchanged. If the current situation drags on, impacts such as increased construction expenses and utilities expenses are envisaged. Accordingly, we will continue to monitor the situation.

(Reference) Power costs in Railways and fuel expenses in Buses

Unit: Millions of yen	Railways (Odakyu Electric Railway Co., Ltd.) Power costs	Buses Fuel expenses
FY3/2027 H1 (Results)	3,479	1,324
YoY change	-136	+27
Compared to forecast as of May	-103	+122
FY3/2027 (Forecasts)	6,879	2,494
YoY change	-148	+101
Compared to forecast as of May	-94	+243

Q2. What is the current status of the Company's main businesses?

(October 1-25, 2026)

Railways (Odakyu Electric Railway Co., Ltd.)	Number of people passing through ticket gates Commuters: -1.6%, Non-commuters: +3.8%, Total: +1.2% * Compared to the same days of the previous year
Odakyu Department Store	Sales Shinjuku Store +7.0%, Machida Store -0.2%, Fujisawa Store +5.1% * Compared to the same days of the previous year
Hakone Area	Number of passengers using Hakone-Yumoto Station Weekdays Approx. -6%, weekends and public holidays Approx. +11% * Compared to the same days of the previous year
	Hakone resort hotels* occupancy rate Remained at approximately 80–90% * Hakone resort hotels: Hotel de Yama, Hatsuhana, HAKONE YUTOWA, RETONA HAKONE and HOTEL CLAD

* Accommodation operations at Hotel Century Southern Tower have been suspended since October 1, 2026 due to renovation work. (The operation of banquet halls, conference rooms, restaurants and lounges will continue until March 31, 2027.)

Q3. What is the definition of "tourism revenue" in the financial results presentation materials? What is the current trend?

- We define the sum of the Odakyu Group's tourism-related operating revenue and duty-free transactions as "tourism revenue." Currently, Transportation (including revenue from non-commuters and limited express fares related to the Hakone and Shonan areas) accounted for around 50%, Hotels accounted for around 20%, and retail, resort temporary staffing, and other businesses were also included.
- In FY3/2027 H1, tourism revenue was 42.8 billion yen (up 11.5% YoY), mainly due to an increase in the number of passengers carried in the Company's railway business and in the Hakone area and the revision of fares in Buses and in the Hakone area. Revenue from inbound tourism only was 14.8 billion yen (up 26.8% YoY), chiefly reflecting an increase in use by inbound tourists in Transportation and an increase in the volume of tax-free sales in Department Stores and commercial facilities.
- In light of the performance in H1 and current trends, we expect tourism revenue to be 84.4 billion yen in FY3/2027 (up 4.8% YoY) and revenue from inbound tourism only to be 27.6 billion yen (up 6.2% YoY).
- In light of the brisk demand from inbound tourists, we will continue to increase the tourism demand we capture, aiming for tourism revenue of 120.0 billion yen in FY3/2031, including 45.0 billion yen in revenue from inbound tourism only.

Unit: Billions of yen	Tourism revenue	
		Inbound tourism only
FY3/2027 H1 (Results)	42.8	14.8
YoY change	+4.4	+3.1
FY3/2027 (Forecasts)	84.4	27.6
YoY change	+3.8	+1.6
Compared to forecast as of May	+1.2	+2.6
FY3/2031 (Targets)	120.0	45.0

Q4. What is the status of tourism demand in Transportation?

- In FY3/2027 H1, the number of Hakone Freepass tickets sold hit a new H1 high (up 4.0% year on year). Additionally, the number of the tickets sold to inbound tourists also hit a new high (up 7.5% year on year), even though the Japan National Tourism Organization (JNTO)'s published number of foreign tourists to Japan from April to September 2026 was 20.04 million (down 5.1% year on year).
- Inbound tourists from the United States accounted for the largest share, specifically 17%, of Hakone Freepass ticket sales, followed by those from France for 8%, and by those from China for 8%. In a year-on-year comparison, sales from tourists from China were stagnant, whereas those from tourists from Europe, the United States and Australia grew.
- We will continue to strive to acquire foreign tourists to Japan as customers by tapping into the steady tourism demand in the Hakone area.

Unit: 1,000 tickets	Number of Hakone Freepass tickets sold		
		Inbound tourism only	Percentage
FY3/2019 H1	449	134	29.8%
FY3/2026 H1	467	191	41.0%
FY3/2027 H1	***486***	***206***	***42.3%***

*__Bold__: Record high

Q5. What is the status of tourism demand in Hotels?

- Reservations for hotel stays in November and later in separate categories are as follows.

<City hotels>

- Accommodation operations at Hotel Century Southern Tower have been suspended since October 1, 2026 due to renovation work.

<Hakone resort hotels> (Hotel de Yama, Hatsuhana, HAKONE YUTOWA, RETONA HAKONE and HOTEL CLAD)

- Occupancy rates are expected to be around 90% in November and around 80% in December.
- Room rates trend upwards from the fall leaf viewing season to the end of year. In November and December, they are set to remain above the level in the second quarter of FY3/2027.
- Hakone Highland Hotel has been closed for renovation since May 7, 2025.

- We will continue to capture strong inbound tourism demand in addition to domestic demand by increasing added value through renovations, the opening of new facilities and other measures.

[Renovations]

Area	Hotel name	Last date of operation	Opening date
Hakone	RETONA HAKONE (formerly Hakone Lake Hotel)	—	December 15, 2025
Hakone	Hakone Highland Hotel	May 6, 2025	Autumn 2027 (plan)
Shinjuku	Hotel Century Southern Tower	September 30, 2026*1	Spring 2028 (plan)*2

*1 Final operating date for banquet halls, conference rooms, restaurants and lounges: March 31, 2027
*2 Restaurants and lounges are expected to open earlier in autumn 2027

[New opening]

Area	Form of operation	Hotel name	Opening date
Hakone	Owned by the Company	SYLA HOTEL HAKONE GORA	May 29, 2026
Hakone	Owned by the Company	All-detached Japanese-style villa hotel (Gora)*	Spring 2028 (plan)

* Name to be determined

Q6. What impacts does the suspension of accommodation operations at the Southern Tower due to renovation work have? (from October 2026)

- In the FY3/2027 forecast, the Company expects sales to fall by 2,400 million yen year on year.
- While recent performance was strong, we decided to go ahead with this renewal ahead of the hotel's 30th anniversary in 2028, in order to achieve its evolution into a more sophisticated urban-style hotel and meet diversifying needs.
- We will limit the impact of the renovation work on performance by minimizing the period of business suspension by fully suspending accommodation operations and staggering the timing of the construction work on banquet halls and restaurants.

Q7. What is the progress of platform door installation in the railway business of Odakyu Electric Railway?

- We are installing platform doors mainly by using a system developed by the government to increase fares for making railway stations barrier-free, aiming to complete the installation at 47 stations (all stations between Shinjuku and Isehara, all stations on the Tama Line, Chuo-Rinkan, Yamato, Shonandai and Fujisawa) by FY3/2033. In FY3/2027, platform doors are planned to come into service at two stations.
- We aim to develop fall prevention measures for standardizing platform doors at the remaining stations by the mid 2030s.

(Reference) Progress in and plan for platform door installation

Scheduled timing of completion	Locations (in cumulative total)	
(1) Done (As of the end of FY3/2027 H1)	19 stations, 54 platforms	Shinjuku (excluding limited express platforms), Yoyogi-Hachiman, Yoyogi-Uehara, Higashi-Kitazawa, Shimo-Kitazawa, Setagaya-Daita, Umegaoka, Gotokuji, Chitose-Funabashi, Soshigaya-Okura, Kitami, Komae, Noborito, Machida, Sagami-Ono, Ebina, Hon-Atsugi, Chuo-Rinkan, Yamato
(2) The end of FY3/2027	21 stations, 60 platforms	Kyodo, Izumi-Tamagawa
(3) The end of FY3/2028	25 stations, 73 platforms	Minami-Shinjuku, Seijogakuen-mae, Tsurukawa, Fujisawa
(4) The end of FY3/2029	27 stations, 79 platforms	Sangubashi, Mukogaoka-yuen
(5) The end of FY3/2033 or before (planned)	47 stations, 130 platforms	All stations from Shinjuku to Isehara (Other than the above), all stations on the Tama Line, Shonandai

* The plans for FY3/2027 and later may be subject to change depending on the provision of subsidies from local governments, the progress of installation and other factors.

Q8. What is the status of fare revisions of Group companies?

- Major fare revisions we made in FY3/2026 and thereafter are as shown in the table below.
- We will consider revising fares at the appropriate time while we continue endeavoring to build a sustainable business operation system.

(Reference) Progress in main fare revisions

Company name	Estimated effect*1 (billion yen)		Implementation date
	FY3/2026 (Results)	FY3/2027 (Forecasts)	
Odakyu Highway Bus (Hakone Line)	0.06	0.06	April 1, 2025
Odakyu Hakone (Sightseeing Cruise, Ropeway, etc.)	0.61	1.51	October 1, 2025
Hakone Tozan Bus	0.10	0.20	October 1, 2025
Odakyu Bus (for the flat fare areas*2 and others)	0.19	0.39	October 1, 2025
Enoden Bus	Minor	0.30	March 31, 2026
Tachikawa Bus	—	0.13	April 1, 2026
Tokai Bus	—	0.12	October 1, 2026

*1 The effect is based on a comparison with a case where the fare revision was not made.
*2 Wards of Tokyo, a part of Kawasaki City, and a part of Yokohama City

Q9. What is the future outlook for Sales business of Real Estate?

<Sales: Sale of newly built condominiums and single-family houses under the LEAFIA brand>

- We expect that the number of units sold will be 441 in FY3/2027, which represents significant growth (up 211 units year on year). In FY3/2027 H1, it was 65 units, which was very close to expectations.
- The major property included in projected unit sales for FY3/2027 is LEAFIA Tower Ebina Chronos Court (planning to post approximately 70% of the total number of units (304)). Currently, we have signed contracts for approximately 60% of the total number of units due to their location, a four-minute walk from the station, and the significant convenience of the neighborhood.
- Purchases have mostly been completed to cover planned supply for FY3/2028. While the purchase price is in an upward trend, we plan to proceed with purchases with a focus on areas close to stations in central Tokyo as well as the Setagaya and Komae areas along the Odakyu Lines where market needs are high.
- In the short term, growing demand associated with the acceleration of purchases in anticipation of further increases in interest rates is expected. However, in the long term, there is concern over a slowdown in demand due to the increased burden of home loan repayments. Although we have seen no remarkable changes in customer trends at present, we will supply products by accurately identifying the needs of the market while continuing to strengthen sales activities targeting customers who are unlikely to be affected by home loans with the goal of maintaining or increasing revenue.

(Reference: Future outlook for investment and development and purchase and resale)

<Investment and development: Developing and selling rental residences, offices, logistics facilities and other real-estate properties for investment>

- In FY3/2027, we are planning five sales, including logistics facilities and offices in central Tokyo, and will seek business expansion with our sights set on FY3/2031.
- Although recent increases in construction material expenses and labor expenses and rising interest rates will have an impact, we aim to achieve the plan through efforts to control costs and the selection of assets and areas with high levels of market demand enabling price pass-through.

<Purchase and resale: Renovating high-grade used residences and reselling them as high-grade residences>

- We plan to post 25 properties in FY3/2027 and as many as 20 or 30 annually from FY3/2028 onwards.
- Because demand from overseas investors has remained at a certain level, we will continue to work on properties in central Tokyo (Minato-ku, Chiyoda-ku, Shibuya-ku, etc.), on which we have been focusing as we establish a growing track record in the acquisition and resale of properties.
- At the same time, we are reinforcing our promotional system enabling us to respond to changes in market conditions and establish a portfolio that leverages our strengths. We also plan to proactively acquire and resell properties in areas along the Odakyu Lines (including the Setagaya and Shin-Yurigaoka areas).
- The impact from rising interest rates will be the same as for sales, with the exception of central Tokyo properties in the high price bracket, and we aim to maintain and expand revenue through initiatives such as flexibly reviewing targets.
