■ Odakyu Group's Initiatives

The Odakyu Group has adopted as its Management Principle helping its customers create “irreplaceable times” and “rich and comfortable lifestyles.” Its promotion of sustainability management, which is aimed at achieving ongoing corporate growth while considering the sustainability of the environment and society, is at the core of the Management Principle. In its Business Planning Structure, the Company has positioned "Promoting sustainability management" as an unalterable idea above the Management Vision, "UPDATE Odakyu." The Company has thus placed the six material issues (key themes) at the center of its management, with a determination to achieve sustainable growth by addressing social issues.
