The number of times that changes are allowed is specified in the following items.

(1) An electronic limited express ticket may only be changed to another electronic limited express ticket, and an electronic special limited express ticket may only be changed to another electronic special limited express ticket.

(2) Changes to an electronic limited express ticket may be made any number of times to a ticket for the same boarding date. Trains for the same boarding date includes all trains from the first train of the day to the last train of the day.

(3) Changes to another boarding date for an electronic limited express ticket are allowed only once. Another boarding date refers to any boarding date other than the initially indicated boarding date.

(4) Changes to an electronic special limited express ticket may be made only once, regardless of whether the boarding date is the same or different.

2 When changes are made to electronic limited express tickets or electronic special limited express tickets by logging in to the website and following the designated procedure, the full amount of the limited express tickets before the change will be credited to the credit card, and the new charge for the post-change electronic limited express ticket or electronic special limited express ticket will be charged to the credit card.

3 Reimbursement pursuant to the preceding clause shall be made to the financial account used for payment which the User has registered with their credit card company by the second day on which account transfers are possible after the day on which changes were made to the electronic limited express ticket or electronic special limited express ticket on the website.

4 After the departure of a limited express train that was boarded using a User's electronic limited express ticket or electronic special limited express ticket, a one-time-only change of traveling section or of the User's seat can be made upon request to the train staff, and subject to the train staff's approval. However, such change is restricted to the same limited express train which the User has boarded. (Such changes cannot be made by logging in to the website)

5 When changes to an electronic limited express ticket are made pursuant to the

preceding clause, the previously paid electronic limited express surcharge shall be compared to the electronic limited express surcharge for the actual traveled section, and if the amount previously paid is insufficient, the surcharge for the new traveling section shall be collected in cash. If there is no difference, then no money will be collected; repayment will not be made for any excess amount paid.

6 When changes to an electronic special limited express ticket are made pursuant to clause 4 above, the electronic limited express surcharge already received and the limited express surcharge for the actual traveled section shall be compared. Any shortfall shall be paid in cash. If there is no difference between the amounts, then no money will be collected; repayment will not be made for any exceed amount paid.

However, in the event that any of the service fees specified in clause 3 below apply, the service fee will be deducted from the amount that is reimbursed.

2 Reimbursement service fees of electronic limited express tickets are 100 yen per seat.

3 The service fee for reimbursement of an electronic special limited express ticket shall be 340 yen in the case where the request for reimbursement is made at least two days prior to the date of departure; if the request for reimbursement is made later than that, then the service fee will be an amount equivalent to 30% of the ticket price, or 340 yen in the event that the amount equivalent to 30% of the ticket price is less than 340 yen. If the request for reimbursement relates to an electronic special limited express ticket for which a change has been made on the specified date, or on the day preceding the specified date, then the reimbursement will be deemed to apply to the electronic special limited express ticket prior to the change, and to have taken place at the time when the change was made, and the normal service fee for reimbursement of an electronic special limited express ticket will be payable.

4 Reimbursement of electronic limited express tickets and electronic special limited express tickets shall be made by crediting the full amount of the original purchase to the credit card, and charging the service fees and the amount for the remaining seats at the time of partial reimbursement to the credit card.

5 In the event that the operation of a limited express train designated on an electronic limited express ticket or electronic special limited express ticket is cancelled, Our Company shall make either full or partial repayment of the electronic limited express surcharge (with no reimbursement of service fees, notwithstanding clauses 2 and 3 above). It may take up to three days for the reimbursement to be completed.

6 Reimbursement will be made to the account of the User's financial institution from which payment was completed, as registered by the User with the credit card company, by the second day on which account transfers are possible after the day on which reimbursement is requested under clause 1 or on which the reimbursement procedures are completed under the preceding clause.
